

## **Navigating Identity: Who We Are**

Qutors academic success is a multidisciplinary academic assistance research and tutoring program, a community driven initiative at Education City which provides a multidisciplinary approach to academic assistance, transformative tutoring program, success in the International Baccalaureate Diploma Programme, Advanced Placement courses for students at Qatar Foundation Pre-University Education entities and local schools in Qatar.

Our goals are anchored on elevating the academic achievement and unlocking the success potential of high school students through innovative and transformative tutoring methods and academic assistance programs, with the ultimate aim of creating a positive impact on both the national and global academic landscape. By anchoring our efforts in supporting student success, Qutors strives to cultivate a new generation of elite student performers.

## **Transformative Academic Support and Multidisciplinary Tutoring: Enriching Academic Context through Perception**

Our aim is to enrich the current methods of academic for students through transformative tutoring while encouraging critical thinking through teacher-student dialogue to drive focus and maximise elite success, laying the groundwork of rigorous academic curriculum for high-school students in Qatar

The goal of enriching academic methods for students through transformative tutoring is to provide a more dynamic and engaging learning experience that can help students to develop critical thinking skills. This approach aims to move beyond traditional rote learning methods, which often focus on memorization of facts and figures, and instead focuses on developing analytical and problem-solving abilities.

By encouraging critical thinking through teacher-student dialogue, students are encouraged to actively engage with their academic material, ask questions, and seek clarification with the core focus on independent research and individualised attention during a tutoring session. This approach can help students to develop a deeper understanding of the subject matter and content and to identify areas where they need further support or clarification.

Through this process, students can begin to take ownership of their learning, working collaboratively with their tutors to set goals and objectives that are tailored to their individual needs and learning styles. This can be particularly effective in high school, where students may be more focused on achieving academic success and preparing for higher education or careers.

The goal of laying the groundwork of a rigorous academic curriculum is to provide students with the foundational knowledge and skills they need to succeed in their future academic and professional endeavours. By setting high standards and expectations for academic performance, students will be motivated to work harder and achieve more, while also developing the skills and knowledge they need to succeed in their chosen fields.

Overall, the aim of our transformative tutoring program in Pre-University Education is to provide students with a dynamic and engaging learning experience that encourages critical thinking and lays the foundation for rigorous academic success. By working closely with teachers in QF Schools and tutors, students will develop the social and ethical skills and knowledge they need to succeed in their future academic and professional pursuits.

## **Beyond the Classroom: IBDP Year 1 and 2 Preparation Program**

This program is tailored to meet the specific needs of each student, with personalised instruction and one-on-one attention for each IBDP Course IBDP Year 1 and 2 students. Organising intensive academic support with our transformative tutoring methods

including individual tutoring sessions, small group sessions, and strategic revision courses for IB Final Examinations at Education City

The IB Tutoring Program at Qutors is designed to provide strategic and personalised support to International Baccalaureate students in achieving their academic goals, strategically tailored to meet the specific needs of each student and are aimed at achieving the following learning outcomes:

- **Mastery of Content**

Designed to help students develop a deep understanding of the subject matter covered in their IB courses with personalised instruction and one-on-one attention to help students master the content of their courses and build a solid foundation for their exams.

- **Improved Grades**

We understand the importance of achieving good grades in the IB program. Our courses are aimed at helping students improve their grades by identifying areas where they need additional support and providing them with targeted instruction and practice by working closely with each student to develop a customised study plan that addresses their individual needs and learning style.

- **Increased Confidence**

Confidence is key to success in the IB program. Our courses are designed to help students build confidence in their abilities and approach their exams with a positive attitude where our tutors provide a supportive and encouraging environment where students can ask questions, receive feedback, and feel confident in their abilities.

- **Critical Thinking Skill**

Recognizing the importance of developing critical thinking skills in the IB program and beyond. Our courses are aimed at helping students develop these skills by encouraging them to think critically, analyse information, and solve complex problems. Our tutors provide challenging and engaging instruction to help students develop valuable skills that will serve them well in their future academic and professional endeavours.

- **Personalised Support**

Our courses offer personalised support to each student, providing them with the individualised attention they need to succeed in the IB program. Our tutors work closely with each student to develop a customised study plan that meets their unique needs and learning style, ensuring that they receive the support and guidance they need to achieve their full potential.

## DP and MYP Tutoring Program exclusive for QA schools.

### MYP & DP Tutoring Program

Strategic IBDP tutoring with focused & tailored support to help students review and deepen their understanding of the curriculum, prepare for assessments, and achieve academic success.

The International Baccalaureate Diploma Programme (IBDP) is a challenging academic programme that requires a high level of dedication, hard work, and academic proficiency.
